

# TECHNOLOGY ASSURANCE PROGRAM™

Striker Systems®

## TAP THE FULL POTENTIAL OF YOUR STRIKER SYSTEMS SOFTWARE WITH A TECHNOLOGY ASSURANCE PROGRAM MEMBERSHIP

By far the most convenient way to purchase, implement, and take full advantage of the latest Striker Systems software. It's called the Striker Systems Technology Assurance Program. And as a Technology Assurance Program member you have a direct relationship with Striker Systems that entitles you to many special benefits. For starters, the Technology Assurance Program provides convenient, automatic delivery of major upgrades and minor updates directly from Striker Systems to you. You also receive discounts on additional Striker Systems services. These and other benefits deliver unprecedented convenience and productivity not available through any other means.

## NO MORE BUDGET UNCERTAINTY

The Striker Systems Technology Assurance Program allows you to accurately plan your software budget regardless of Striker's release schedule. For an annual membership fee, you receive all upgrades and updates released for your Striker Systems software. The membership fee is all you'll have to budget to receive your Striker Systems software of choice. It's that simple.

## INCREASING YOUR ADVANTAGE WITH THE LATEST STRIKER SYSTEMS SOFTWARE SOLUTIONS

In today's fiercely competitive business world, keeping up with the latest software technology is essential to maintaining an edge over your competition. Upgrading to the most recent release of Striker Systems software increases your productivity by enabling you to do more in less time with better results. That sounds simple, but conventional software upgrade programs are never so easy. The price and timing of each new release are often uncertain. It is virtually impossible to accurately plan your software budget and implementation schedule and still keep downtime to a minimum. Now there's a better way... the Striker Systems Technology Assurance Program. For an annual membership fee you are automatically delivered the latest upgrades of your Striker Systems software. It's never been easier to budget and control your implementation process.

## WHAT'S INCLUDED?

So what is included with your Technology Assurance Program membership? Well, it is more than an upgrade program. The Striker Systems Technology Assurance Program extends exclusive benefits... including discounts on additional Striker Systems products and services.

**Automatic Delivery of Upgrades** - As a Technology Assurance Program member, you will automatically receive all upgrades and updates to your Striker Systems software. Budgeting has never been easier!

**Technical Support Discounts\*** - Access to technical support is an important component of any CAD/CAM software installation. With your Technology Assurance Program membership you will receive exclusive discounts to a variety of technical support options.

**Training Discounts\*** - Changing or adding personnel? Adding equipment? Striker Systems offers ongoing training options to support the growth of your business. And with your Technology Assurance Program membership, training is available at an exclusive discounted rate.

*(continued on other side)*

## WHAT'S INCLUDED? (continued)

**Software Discounts\*** - Technology Assurance Program members receive discounts on the purchase of select software products, including additional CNC Machine Drivers.

**Exclusive Promotions** - As a Technology Assurance Program member, you will qualify for exclusive Striker Systems promotions. Past promotions have included additional software licenses at a significantly reduced rate and new products at an introductory purchase price.

## TECHNOLOGY ASSURANCE PROGRAM BENEFITS

**Convenience:** Automatic delivery of upgrades and updates means you never have to worry about purchasing, budgeting for, or tracking down new releases.

**Productivity:** Your Technology Assurance Program membership increases your productivity by giving you early access to the latest, most powerful software.

**Implementation Control:** Typically, your budget cycle greatly influences when you are able to implement a new software release - even if it's not the best time for you and your clients. With a Technology Assurance Program membership, the purchase decision is separate from the implementation decision, so you can install the new release when it makes the most sense for you.

**Partnership with Striker Systems:** Your Technology Assurance Program membership gives you a link with Striker Systems, which means you'll have exclusive access to discounted products and services.

**Cost Planning:** Your membership eliminates the uncertainty usually associated with upgrade budgeting.
